Tombstone, which was claimed for Murphy from 30 to 50 majority, did not. Considering the influence at work to defeat "Our Mark" the voters stood firmly by their own and gave Smith a majority. True it was not a large majority but Tombstone is nevertheless in the right column.

An El Paso exchange says: "A very peculiar hand truck was in the west bound baggage this morning. The hinges were hand made and of iron, with the body of the truck was covered with hand plated hair. Its appearance indicated an age of not less than 100 years. I had come from Mexico by the way of Eagle Pass and was checked to San Francisco."

Several bets were made in Tombstone that Murphy would carry this city, one enthusiast fixing the majority for Murphy at 25. After the vote were counted and Tombstone still found for Our Mark the enthusiasts were not so joyful. Considering the manner and methods employed to down "Our Mark" in his former home even the small majority he received is more of a victory than if he had otherwise received his usual majority under ordinary opposition.

THE COPPER BULLION

Talk With Mr. P. H. Clark General Manager

Mr. P. H. Clark, general manager of the Copper Bullion Mining Company, whose property is in the Dragoon district, Cochise county, Arizona, returned this week to Los Angeles from San Francisco. To a representative of the Los Angeles Mining Review, when asked about the workings on the Copper Bullion mines, he stated that the company kept about fifteen men at work, and that the tunnel they are driving is now in nearly 700 feet. Mr. Clark said that in their shaft No. 1 they were down 200 feet and will sink it down to the tunnel. The formation on the Copper Bullion is the same as that on the entire belt in the Dragoon, their contact of porphyry with the granite is a very heavy, massive vein of iron and manganese. Next to this is a big dyke of quartz porphyry, over 100 feet in width, with perpendicular walls from 50 to 80 feet in length, next to the line. This dyke runs without a break for 6000 feet on the contact.

Mr. Clark brought with him from the mine some samples of sulphide ore taken at a depth of 150 feet in the shaft. An assay of the same ore gave 66 per cent copper, 117 ounces silver and \$227 gold per ton, making at present value, a total of \$270 per ton.—L. A. Review.

THE BISBEE MEETING

A Rousing Reception Tendered Last Night

BISBEE, Nov. 5, 1900

A large procession was in waiting for Marcus Smith today and the Copper Queen Band furnished the music. Giant powder and black were used as a salute on the arrival of the train and kept up until the procession was halfway up Tombstone gulch. Your correspondent was in the committee wagon. The procession formed at Graham's stable, and met Marcus A. Smith at the depot. The band wagon went ahead up Tombstone gulch, turned and went around Pioneer Avenue emerging from Brewery Gulch and thence to the library where Marcus Smith made a speech from the steps of that place. I want to say something here of the procession. It contained twenty-five vehicles all told, some of them carrying twenty people. All the county candidates were present, if there was one not present it must have been E. A. Nichols, and of course he was unavoidably absent. Each one of our county candidates had their names printed on canvas, and what office he aspired for. Sheriff Scott White was in a buggy with Ed Brown. The greatest enthusiasm prevailed all along the route of the parade and even ladies and little girls waited their chance to take of the approval of William J. Bryan for president of the U. S. and the Arizona representatives of the big party.

On Marcus Smith's arrival at the library he spoke from the steps to most all who could get to hear him. He was given a great ovation and will speak this evening at 8 o'clock in the library.

AT NIGHT

Bisbee was again out in force last night at the library hall to hear Marcus Smith and county candidates. It was computed that there were over 2,000 people; the largest gathering ever seen in Bisbee on a political occasion. The Copper Queen band furnished the music and from the front of the library to the Copper Queen store there was one dense mass of humanity, and the band, which is second to none on earth, played their usual excellent music, and at the same time shot were fired and the hills around Bisbee were illuminated by bonfires.

Your correspondent was provided with accommodation at the speaker's table. The first speaker was A. B. E. Glush, introduced by Chairman Parkard. He spoke for about fifteen minutes on matters in general with regard to the reduction of taxes in Cochise county and in behalf of different candidates not seeing the suffering of the people. He spoke of the coming greatness of Tombstone; of criminal laws, and the increased duties of a prosecuting attorney. He was listened to with great attention. Col. Mike Gray followed, then S. E. Roemer, District Attorney Lamb, D. L. Lewis, M. D. Scribner, C. R. B. Wick, W. F. Frank, Harp, and P. J. D. I. henty. Thus far the crowd had not been present but her was G. F. Graham, or Geo. C. Clark. At this time a bouquet of flowers were brought on the program, presented by the ladies the unavoidable absence of E. A. Nichols which was received with cheer. Mar. Smith was then introduced.

He made a forcible speech and the plaudits of the people present showed that they were entirely in accord with his remarks. He said in part that he did not care so much for the position as he did for the principles contained in the democratic platform. He appealed to republicans to think before they voted and asked the people to consider whether they wanted a monarchy or liberty. At the close he was loudly and longly cheered.

THE END OF THE WORLD 1914

A famous scientist predicts that the world will come to an end in 1914, basing his calculation on the revelations of the Bible. If this is so, it is well for us to get what pleasure we can out of the few years that remain for us to live. One of the surest ways to enjoy life is the possession of good health and a well regulated stomach. Hostetter's Stomach Bitters will enable anyone to obtain this. It is the greatest medicine for the cure of all ills that arise from a bad stomach. It cures dyspepsia, constipation, fever, and ague, malaria, rheumatism and insomnia. No other medicine can show a record equal to Hostetter's Stomach Bitters, the standard medicine of the American people for over fifty years.
